

# Ballons Solaires Combi avec ou sans résistance électrique

| COMBI STORAGE TANK |  |      |           |            |
|--------------------|--|------|-----------|------------|
| Dimensions         | DESCRIPTION  |      | CAPACITY  |            |
|                    |  |      | H800/160L | H1000/200L |
| A                  | Height   | mm   | 2065      | 21250      |
| B                  | Diameter (including isolation)                     | mm   | 1000      | 1050       |
| C                  | Boiler return                                      | mm   | 125       | 190        |
| D                  | Serpentine outlet                                  | mm   | 350       | 420        |
| E                  | Sensor case  | mm   | 1035      | 1110       |
| F                  | Serpentine inlet                                   | mm   | 1250      | 1345       |
| G                  | Boiler inlet                                       | mm   | 1525      | 1610       |
| H                  | Hot water inlet                                    | mm   | 1890      | 1985       |
| L                  | The height of cleaning door                        | mm   | 505       | 505        |
| M                  | Cleaning door                                      |      | DN 250    | DN 250     |
| N                  | Serpentine inlet / outlet diameter                 | inch | 1"        | 1"         |
| O                  | Hot water inlet / Diameter of boiler return pipe   | inch | 1"        | 1"         |
| P                  | Diameter of boiler inlet pipe                      | inch | 3/4"      | 3/4"       |
| R                  | Volume of hot water                                | lt   | 160       | 200        |
| S                  | Volume of heating water                            | lt   | 640       | 800        |
| U                  | Weight   | kg   | 565       | 620        |
| V                  | Combi circuit inlet                                | mm   | 2065      | 2120       |
| Y                  | Combi hot water outlet                             | mm   | 2065      | 2120       |
| Z                  | Combi sensor case                                  | mm   | 2065      | 2120       |
| Q                  | Combi circuit inlet / Diameter of hot water outlet | inc  | 1/2"      | 1/2"       |
